

**Crossroads Counselling Practice** is seeking a psychologist or mental health professional who would like to rent a room at our West Pennant Hills Practice. It would be on a subcontracting basis where the room rental fee would allow you to have a profile on our website if you wish, access to EFTPOS facilities, a telephone message service, business cards and other office supplies and resources. We have fully furnished and comfortable rooms available most days of the week so there is an opportunity to be quite flexible in your rental arrangement and take advantage of a pay as you use option to allow a slower start with minimal outlays.

There is a high likelihood we can offer referrals. We get numerous enquiries particularly for people able to provide sessions under Medicare - Better Access to Mental Health services that we currently have to turn away. If you have private health care provider numbers, then this would be of benefit. We are also interested in those who may have experience with adolescents in addition to adults.

Membership to a relevant professional association and/or PACFA would be essential as is holding professional indemnity and public liability insurance. If this sounds appealing and you would like to know more please send your enquiry to : [enquiries@crossroadscounsellingpractice.com.au](mailto:enquiries@crossroadscounsellingpractice.com.au)
